

# High Performance Diesel Fuel

## Maximizing Your Engines Power

RCC Gold High Performance Diesel Fuel will improve the success of your business by helping you maximize the reliability of your equipment allowing you to work more efficiently so your business can be more profitable. It is important to choose a fuel that you can depend on, and RCC Gold will provide you the performance you need in diesel fuel.

With the changing diesel engine technology, you need a reliable diesel fuel that can meet and exceed the toughest of demands. RCC Gold High Performance Diesel Fuel is comprised of quality #2 base diesel fuel enhanced with a top-tier, multi-functional additive package formulated to deliver benefits that matter to your business:

- Reduces downtime
- Improves fuel economy 3-5%
- Increase power output
- Enhance lubricity up to 15-20%
- Provides quicker more efficient start ups
- Cetane number of 48
- Reduce maintenance costs
- Extends life of injectors and injector pumps

9072 Cahill Avenue, Inver Grove Heights, MN 55076

Features	What It Does	Benefits to You
<b>Cetane Improvers</b>	<ul style="list-style-type: none"> <li>• Improves combustion efficiency to provide more power</li> <li>• Improves cold-temperature startups</li> <li>• Reduce engine noises and knocking</li> <li>• Reduce harmful emissions</li> <li>• Reduce white smoke and warm-up times</li> </ul>	<ul style="list-style-type: none"> <li>• Reduce fuel consumption to get the most value from every gallon of ULSD used</li> <li>• Promotes longer engine life and less maintenance</li> <li>• Improves power output keeping your business rolling more efficiently</li> </ul>
<b>Detergents &amp; Dispersants</b>	<ul style="list-style-type: none"> <li>• Removes carbon deposits from injectors</li> <li>• Helps prevent rings from sticking</li> <li>• Designed for all diesel engines, including high pressure common rail designs</li> <li>• Keeps combustion chamber clean for more efficient combustion</li> </ul>	<ul style="list-style-type: none"> <li>• Keeps injectors clean firing like they should saving you costly repairs</li> <li>• Improves power and torque increasing your equipment's operating efficiency and maximizing productivity</li> <li>• Improves fuel economy saving you money</li> <li>• Improves startability and engine operation reducing operator frustration</li> </ul>
<b>Lubrication Improvers</b>	<ul style="list-style-type: none"> <li>• Restores the lubricity to ULSD fuel</li> <li>• Provide 15-20% better protection of pumps and injectors from accelerated friction and wear</li> </ul>	<ul style="list-style-type: none"> <li>• Promotes long life of pumps and injectors</li> <li>• Reduced maintenance costs and downtime</li> </ul>
<b>Corrosion Inhibitor</b>	<ul style="list-style-type: none"> <li>• Protects storage tanks and fuel systems from corrosion</li> </ul>	<ul style="list-style-type: none"> <li>• Extends storage tank and fuel system component life</li> <li>• Decrease fuel pump and injector wear</li> </ul>
<b>Demulsifiers</b>	<ul style="list-style-type: none"> <li>• Helps separate water from the fuel for easy removal</li> <li>• Isolates the water so it doesn't make it to the engine</li> </ul>	<ul style="list-style-type: none"> <li>• Easy removal of water from tank</li> <li>• Decrease wear on injectors</li> </ul>
