

Dear River Country Cooperative Patron:

The River Country Cooperative Board of Directors and Leadership team are actively reviewing and proactively addressing the concerns and protocols of the COVID-19 pandemic.

River Country Cooperative encourages and promotes safety, cleanliness, and consideration for its employees, members, and their families. We are encouraging all customers, vendors, and visitors to limit non-essential visits and in-person interactions over these next few weeks.

Please call, email, and/or text your River Country Cooperative representative.

As we roll into spring, agronomy, construction, and energy product use will escalate. During this time, we will hold ourselves to a high level of cleanliness as well as customer service response.

River Country Cooperative appreciates and thanks you for your continued patronage of our Agronomy, Energy, Convenience Store, and Grain & Feed operations.

Please contact your respective River Country Cooperative representative with questions. Thank you.

Sincerely,
